Indranil Das

Creatio & Pega Consultant · Tata Consultancy Services

SUMMARY

Creatio and Pega PRPC consultant with 5 years of experience at Tata Consultancy Services, delivering case management, workflow automation and system integration for banking and insurance clients. Two years on Creatio (Freedom UI, BPM, FinCrime, customer onboarding) and 3+ years on Pega PRPC 8.7 (underwriting, claims, legacy migration). Provides production support across debugging, query optimization and performance tuning.

EXPERIENCE · TATA CONSULTANCY SERVICES, OCT 2021 – PRESENT

Cumberland Building Society · Banking

Nov 2024 – Present

Creatio Consultant · Creatio, Freedom UI, BPM, REST APIs, SQL, Agile, Git, Jira

- Develop and customize Creatio applications for simple and complex case management, FinCrime and customer onboarding.
- Design BPM workflows and automations that streamline banking operations and improve case-handling efficiency.
- Integrate Creatio with external systems through APIs and web services to support onboarding and compliance data flows.
- Build and enhance FinCrime workflows for monitoring and resolving financial crime cases in line with banking regulations.
- Optimize database queries and application performance, and diagnose complex issues using Telemetry.

Selective Insurance · Insurance

Nov 2023 – Oct 2024

Pega Consultant · Pega PRPC 8.7, REST, SOAP, Sections, Harnesses, Tracer, Agile

- Delivered enhancements to the Underwriting Workstation, supporting the full underwriting lifecycle.
- Developed case types, flows and subflows for underwriting approval, renewals and claims handling.
- Built reusable UI sections and harnesses to keep the user experience consistent across modules.
- Integrated REST and SOAP services for data exchange with external systems.
- Optimized queries and application performance, and resolved complex issues using Tracer and Live UI.

Aegon UK · Insurance

Nov 2022 – Nov 2023

Pega Consultant · Pega PRPC 8.7, Case Management, Data Pages, Decision Rules, Report Definitions

- Delivered enhancements to Claim Processing applications, primarily the Adhoc Withdrawal process.
- Designed end-to-end policy and claims workflows to improve accuracy and reduce manual effort.
- Built and optimized declarative rules, data transforms and reporting dashboards that surfaced actionable business insights.
- Partnered with QA teams, resolved production defects and ensured adherence to Pega guardrails.

Athora NL · Insurance

Oct 2021 – Oct 2022

Pega Consultant · Pega PRPC 8.7, REST, SOAP, Mainframe Integration, Agile

- Contributed to migrating business applications from legacy LION and mainframe systems to Pega PRPC.
- Built screen flows for business users and later converted them into fully automated Pega workflows.
- Configured SOAP and REST APIs for data exchange between Pega and backend systems.
- Integrated with external mainframe systems via LINK to manage policy and claims data.
- Collaborated with onshore teams on knowledge transfer while contributing to Agile sprints and testing cycles.
